

# City Essay Rubric

**0**  
**No Points**  
Requirements missing.

**1**  
**Poor**  
Poor–Fair quality. Fulfills less than 50% of requirements.

**2**  
**Good**  
Average–Above average quality. Fulfills at least 85% of requirements.

**3**  
**Excellent**  
Excellent quality. Fulfills 100% of requirements with additional distinctive features.

Appendix:  
Rubrics

I. Introduce City and Define the Problem (15 points)	0	1	2	3
<b>1. City overview</b> <ul style="list-style-type: none"> <li>Basic city information: population, age, location</li> <li>Climate and/or natural features</li> <li>City economy</li> </ul>	No description of city.	Brief description of city.	Good description of the city.	Detailed description of city.
<b>2. Infrastructure</b> <ul style="list-style-type: none"> <li>Types of Infrastructure could include: housing, transportation, energy, pollution control or others.</li> </ul>	No description of city infrastructure.	Brief description of one type of city infrastructure.	Good description of two different types of infrastructure.	Detailed description of two or more types of infrastructure.
<b>3. City services</b> <ul style="list-style-type: none"> <li>Types of city services could include: education, healthcare, fire or police protection, etc.</li> </ul>	No description of city services.	Brief description of one type of city service.	Good description of two different types of city services.	Detailed description of two or more types of city services.
<b>4. City innovations &amp; futuristic elements</b>	No description of innovation and what makes it futuristic.	Brief description of innovations and what makes it futuristic.	Good description of innovations and what makes it futuristic.	Detailed description of innovations and what makes it futuristic.
<b>5. Problems to be solved with public spaces</b>	No description of any problems.	Brief description one problem.	Good description of two problems.	Detailed description of two or more problems.
II. Specs and Solution (21 Points)	0	1	2	3
<b>6. The solution</b> <ul style="list-style-type: none"> <li>Network of public spaces across city</li> <li>Two examples of redeveloped public spaces:               <ul style="list-style-type: none"> <li>roadway</li> <li>greyfield or brownfield</li> </ul> </li> </ul>	No description of network of public spaces or examples of redeveloped space.	Brief description of network of public spaces and one redeveloped spaces or two examples are not different in type.	Good description of network and two different examples of redeveloped spaces.	Excellent description of network, two different types of redeveloped spaces, and how they work together.
<b>7. Public space before improvements and after</b> <ul style="list-style-type: none"> <li>Infrastructure improvements</li> <li>Improvements to health, happiness, safety of citizens</li> </ul>	No description.	Brief description of either before improvements made or after improvements made.	Good description of before improvements made and after improvements made.	Excellent description of before improvements made and after improvements made.
